Loss Control Questionnaire

Dear Valued Customer:

The following ten pages contain your Fiscal Year 2025 Loss Control Questionnaire.

It is divided into seven sections, with each section addressing a different risk management area. Section Seven (VII) applies only to Public Service Water and Sewer Districts and/or Law Enforcement agencies and the last page lists information about the documentation we are requesting.

The purpose of this Questionnaire is to provide us with information we need to better understand your current efforts to limit and control preventable claims and also to provide us with detailed information regarding your specific loss control policies and programs. In addition, the information you provide will help us identify specific risk management areas where our technical assistance may be of the greatest benefit to you.

Our goal is to do whatever we can to help you avoid or eliminate unnecessary losses and claims.

As an incentive to developing these essential programs and policies, we are offering a system of premium credits and surcharges associated with this Questionnaire. The greater the number of “yes” answers you have, accompanied by the appropriate and relevant documentation, the greater the likelihood you will be entitled to a premium credit for this next fiscal year. Conversely, the greater the number of “no’s”, and/or an absence of appropriate supporting documentation, may result in no change in your premium, or in a surcharge.

We hope each one of our customers will succeed in getting a premium credit to help them control their insurance costs.

Thank you for completing this Questionnaire.
