National Cybersecurity
Awareness Month

Week 3: Oct. 15–19: It's Everyone's Job to Ensure Online Safety at Work

When you are on the job – whether it's at a corporate office, local restaurant, healthcare provider, academic institution or government agency – your organization's online safety and security are a responsibility we all share. And, as the lines between our work and daily lives become increasingly blurred, it is more important than ever to be certain that smart cybersecurity carries over between the two. Week 3 will focus on cybersecurity workforce education, training and awareness while emphasizing risk management, resistance and resilience. NCSA's CyberSecure My Business™ <https://staysafeonline.org/cybersecure-business/> will shed light on how small and medium-sized businesses can protect themselves, their employees and their customers against the most prevalent threats.

Phishing one of the ways that hackers enter and wreak havoc in a system. Remember – be very cautious about opening attachments!

If you encounter a suspicious email, please forward it to OT.Phishing@wv.gov or ServiceDesk@wv.gov. If you have fallen victim to a phishing attempt or you believe your account or computer was compromised, please contact the Service Desk immediately at the above email addresses or by calling 304-558-9966 or Toll Free 877-558-9966.

Note: Your agency/bureau/department/division may have specific requirements – always check your policies and procedures. If you have questions, contact your Privacy Officer.
